

# History

1930. 8	PACIFIC INDUSTRIAL CO., LTD. was founded to manufacture valve cores for automobiles.	1990.11	Set up Higashi Ogaki plant, The professional factory of resin.
1936. 8	Received rights to the utility model of the valve core.	1999. 7	PACIFIC MANUFACTURING OHIO, INC. as the subsidiaries of PACIFIC INDUSTRIES USA INC.
1938. 4	Reorganized into PACIFIC INDUSTRIAL CO., LTD. Started production of tire valves and valve cores for aircraft, automobiles, etc.	2000.12	Started production of TPMS transmitters.
1946. 8	Started production of metal stamping parts for automobiles as a supplier to Toyota Motor Corp.	2002.11	Achieved global production total 10 billion of the valve core, 5 billion of the tire valve.
1954. 7	Qualified as a manufacturer of valve core products under the Japan Industrial Standard.	2004. 9	Established PACIFIC AIR CONTROLS CO., LTD.(Korea)
1960.11	Set up Nishi Ogaki Plant, Expansion of stamping business.	2005. 4	Established TIANJIN PACIFIC AUTO PARTS CO., LTD.
1970. 8	Listed in the TOKYO and NAGOYA STOCK EXCHANGES, 1st Sections.	2006.12	Set up Kyushu Plant.
1972.11	Set up Kita Ogaki Plant, Expansion of tire valve business.	2010. 5	Set up Kurihara Plant.
1977. 9	Set up Mino plant, The professional factory of a tire valve and a valve core.	2011.11	Established CHANGSHA PACIFIC HANYA AUTO PARTS CO., LTD.(China)
1982. 9	Set up Yoro plant, The professional factory of dies for stamping.	2012. 5	Established PACIFIC INDUSTRIES EUROPE NV/SA.(Belgium)
1984. 6	Established PACIFIC VALVE (TAIWAN) CO., LTD.	2013.11	Set up Wakayanagi Plant.
1987. 5	Established PACIFIC VALVE INDUSTRIAL CO., LTD.(Korea)	2014. 1	Achieved production total 100 million of the TPMS.
1988. 7	Established PACIFIC INDUSTRIES USA INC.	7	Established PACIFIC MANUFACTURING TENNESSEE, INC.(USA)
1989. 3	Established PACIFIC INDUSTRIES (THAILAND) CO., LTD.	7	Established PACIFIC AUTO PARTS TECHNOLOGY (CHANGSHU) CO., LTD.(China)
			Integrated Schrader for valve Business.
		2018. 8	Moved to the Prime and Premier Market with a restructuring of the Tokyo and Nagoya Stock Exchanges market.
		2022. 4	

# Company Profile

 **PACIFIC INDUSTRIAL CO., LTD.**

## Pacific Industrial Group's Initiatives for Sustainability (SDGs)

With four pillar themes related to the long-term vision, 15 materialities (important issues), and goals of the SDGs to focus on, the entire Pacific Industrial Group aims to realize a sustainable society.

### 4 pillar themes

- 1. Trust building with our stakeholders
- 2. Solving social and customer issues through our products
- 3. Minimization of environmental load
- 4. Respect of human resources and being active

### PACIFIC Environmental Challenge 2050

Mitigation of the climate change and adaptation	Use of sustainable resources	Conservation of water resources
<b>CO<sub>2</sub> emission</b> ※Scope 1 and 2. Compared to FY2019	<b>Industrial emissions</b> ※Compared to FY2019	<b>Water usage</b>
2030 Target → <b>Reduce by 50%</b>	2030 Target → <b>Reduce by 60% in Japan</b> <b>Reduce by 30% in overseas</b>	2030 Target → <b>Proper use</b>
2050 Target → <b>Net zero</b>	2050 Target → <b>Minimize</b>	2050 Target → <b>Use depending on local circumstances</b> <b>Minimize</b>

Shinya Ogawa President

*Shinya Ogawa*

Since our establishment in 1930 with the aim of producing valve cores domestically throughout Japan, beginning with tire valve products Pacific Industrial Co., Ltd. has grown the business into the development and production of automotive stamping, plastic molding, electrical and control equipment, and next-generation valves known as TPMS (Tire Pressure Monitoring System).

The automobile industry is in the midst of a major revolution, which is said to occur once every 100 years, and “CASE” and “light weight” are the key to competition between companies. At the same time, sustainability management focusing on social issues such as “SDGs” is required. In order to realize a sustainable mobility society, I want our group to continue to be a company which is trusted and expected by society by fostering human resources and further promoting technological development to improve safety, environment and comfort by utilizing our core technologies.

We appreciate your continuing support.

## Long-term Vision 「PACIFIC GLOCAL VISION」

### VISION 1

A true GLOCAL company that is trusted by stakeholders, rooted in local communities, and can coexist and develop

### VISION 2

A company that continues to provide new businesses, new products, and new technologies by leveraging its core technologies for a sustainable society

### VISION 3

A company that values the new ideas and challenges of its employees and can realize the harmony between work and life

## Company History

### Company Name

Pacific Industrial Co., Ltd.

### Location(Head Office)

100 Kyutoku-cho, Ogaki, Gifu, Japan  
TEL +81-584-91-1111

### Established

August 8, 1930

### President

Shinya Ogawa

### Capital

JPY 7,316 Million(As of Mar. 31,2022)

### Stock Listings

Tokyo Stock Exchange Prime Market,  
Nagoya Stock Exchange Premier Market  
Share unit number:100 (Security code:7250)

### Net Sales

Consolidated (Fiscal year 2021) : JPY 164.4 billion yen  
Unconsolidated (Fiscal year 2021) : JPY 81.5 billion yen

### Business Line

Manufacture of Automotive Parts & Electronic Parts

### Number of Employees

1,980 (unconsolidated) (Group as a whole 4,800)

## Main Products

### Stamping Products

We manufacture various stamping products including body parts to secure the strength and rigidity of the body.  
We focus on the molding technology for ultra-high tensile materials that achieve both weight reduction and high rigidity.

### Resin Products

We manufacture a variety of resin products, with our strengths in film decoration technology and sound proof and vibration isolation performance technology.

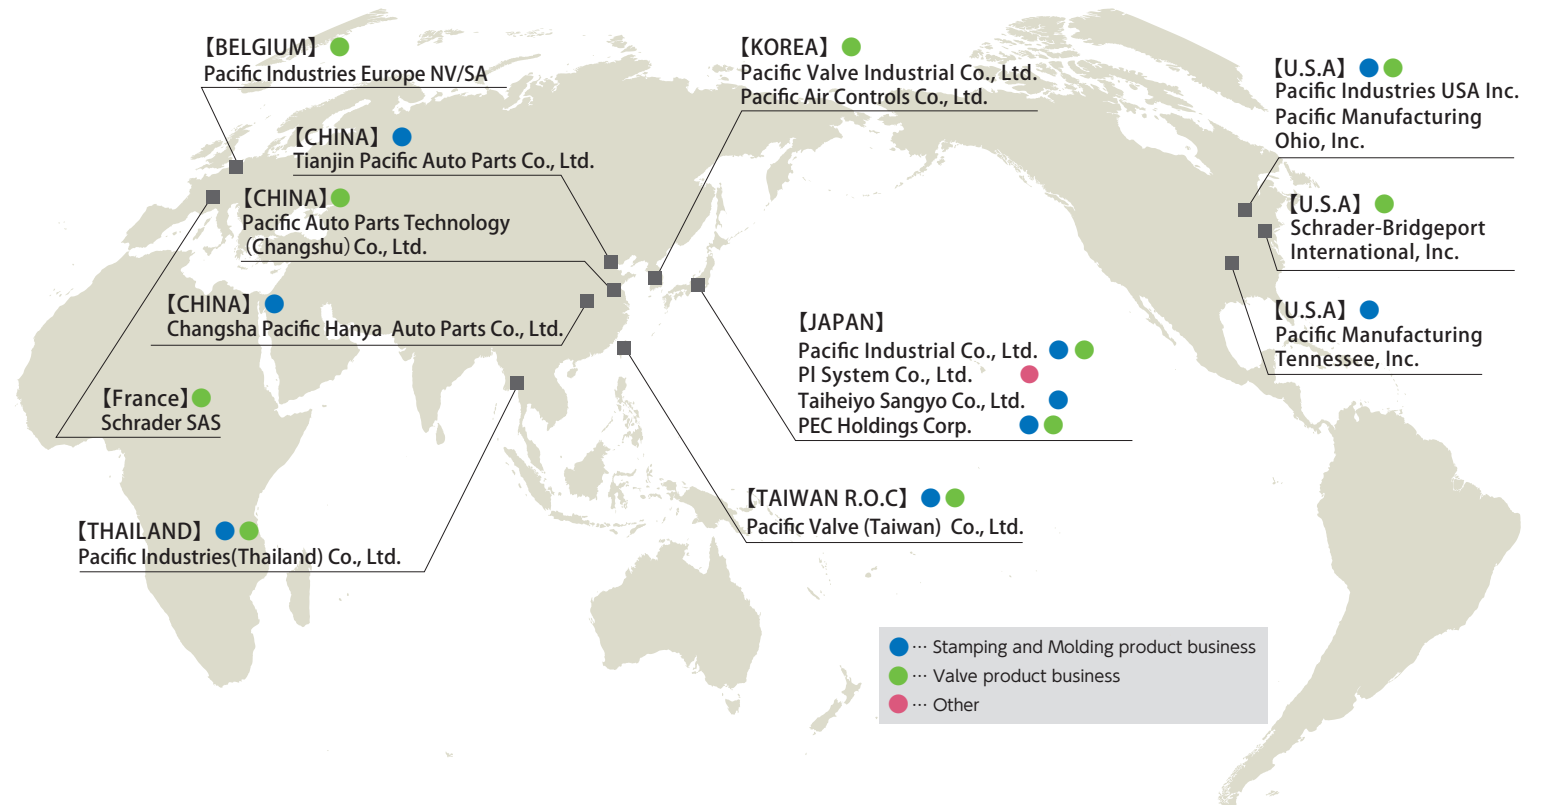

### Valve/TPMS Products

We manufacture valve products with multiple world top market share products in the world, eco-friendly TPMS products that protect safe driving, and aluminum die casting products for car air conditioner compressors.

## World Wide Network

Pacific Industrial Groups develop global management at 13 overseas companies, 1 branch office in 7 countries and 4 domestic companies.

## Domestic

We have 8 domestic plants, the head office and Nishi Ogaki plant, positioned as the center in Ogaki-city, Gifu-prefecture.

Head Office / Nishi Ogaki Plant

### Chubu Area (Gifu)

- Head Office / Nishi Ogaki Plant ●
- Kita Ogaki Plant ●
